The two slowly develop a friendship as they investigate the case of Ray Richardson, who was convicted of murdering his parents twenty-one years ago. Matt and Sonya are soon convinced that Ray is innocent—but how will they prove it? Unraveling the cold case takes them on a journey filled with twists, turns, deception and danger. It will take dedication, perseverance and courage to unmask the real murderer. Can those same qualities help Matt move on to a life not defined by football?

The Phone Booth in Mr. Hirota's Garden

Author: Heather Smith, Illustrated by Rachel Wada

Publisher: Orca Book Publishers | Release Date: 01/02/2020

Format: Hardback | Pages: 32 | Size: 19.7 x 27.3 cm

DESCRIPTION: When the tsunami destroyed Makio's village, Makio lost his father... and his voice. The entire village is silenced by grief, and the young child's anger at the ocean grows. Then one day his neighbor, Mr. Hirota, begins a mysterious project—building a phone booth in his garden. At first Makio is puzzled; the phone isn't connected to anything. It just sits there, unable to ring. But as more and more villagers are drawn to the phone booth, its purpose becomes clear to Makio: the disconnected phone is connecting people to their lost loved ones. Makio calls to the sea to return what it has taken from him and ultimately finds his voice and solace in a phone that carries words on the wind.

The Phone Booth in Mr. Hirota's Garden is inspired by the true story of the wind phone in Otsuchi, Japan, which was created by artist Itaru Sasaki. He built the phone booth so he could speak to his cousin who had passed, saying, "My thoughts couldn't be relayed over a regular phone line, I wanted them to be carried on the wind." The Tohoku earthquake and tsunami in 2011 destroyed the town of Otsuchi, claiming 10 percent of the population. Residents of Otsuchi and pilgrims from other affected communities have been traveling to the wind phone since the tsunami.

Under Our Clothes: Our First Talk About Our Bodies (The World Around Us)

ISBN: 9781459820975

RRP: \$34.95

Author: Jillian Roberts, Illustrated by Jane Heinrichs

Publisher: Orca Book Publishers | Release Date: 01/02/2020

Format: Hardback | Pages: 32 | Size: 25.4 x 21.59 cm

DESCRIPTION: This illustrated non-fiction picture book by child psychologist Dr. Jillian Roberts introduces children to the topics of bodies, body safety and body image through a conversation-based story that begins with an observation at the community pool. Modesty, privacy and boundaries are discussed, along with how self-image is formed and how some people are more sensitive than others—sometimes at different stages in their lives. Relevant themes around body shaming, body positivity and self-esteem building are explored, with a final call to action empowering children to build their own confidence and speak up when something doesn't feel right.

The World Around Us series introduces children to complex cultural, social and environmental issues that they may encounter outside the comfort of their homes, in a way that is straightforward and accessible. Sidebars offer further reading for older children who have bigger questions or care providers looking for more information. For younger children, the simple question-and-answer format of the main text will provide a foundation of knowledge on the subject matter.

Iggy's World

ISBN: 9781459821392

DESCRIPTION: Fourteen-year-old Iggy comes from a famous family. Well, sort of. His dad directs a cheesy sci-fi Web series, his mom writes for it, and his sister has a successful YouTube channel. Iggy doesn't have the acting bug, so he feels like an outsider. Wanting to prove himself, Iggy starts his own podcast about what interests him: insects.

But it's not until Iggy embarrasses his famous sister on air that his podcast really takes off. He's thrilled with his own success, until she fires back. Now it's all-out war.

Iggy's World is an exploration of the age-old problem artists face: when we find inspiration from our real lives, what will our friends and family think? And, of course, just how much of our private lives do we really want to reveal online?

how do we share more equitably? Ours to Share starts by giving an overview of human population growth, from the time when there were only a few hundred thousand people until now. The book goes on to examine some of the inequities that happen between people when natural and social resources are stressed and provides examples of people who have found innovative ways to share more equitably with their neighbors.
